BEYOND FORAGING AND COLLECTING

This volume includes new research on the theoretical implications regarding the mechanisms of change in the geographical distribution of hunter-gatherer settlement and land use. It focuses on the long-term changes in the hunter-gatherer settlement on a global scale, including research from several continents. It will be of interest to archaeologists and cultural anthropologists working in the field of the forager/collector model throughout the world.

People Involved: Ben Fitzhugh
Status of Research or Work: Completed/published
Research Type: Publications, Books
